Regional Sales Manager – Southern California  
Vantage Learning  
234 28<sup>th</sup> Street  
Hermosa Beach, Ca. 90254

On behalf of the students that I'm charged with to provide educational opportunities for not only learning the grade level subject matter, but being able to demonstrate their mastery of same, I extend my thanks. I am excited and eagerly anticipate the students' growth in their individual skills with respect to the various domains found within the language arts as a subject and that are addressed within this application. The interactive nature that this program brings to the learning table will satisfy the need for most students to experience an instant gratification from their efforts both in terms of their successes and in terms of their skill developments. As a teacher, where instructional time is most valued, I am pleased to be able to perform various analysis of students' work in a timely manner, thereby providing the needed guidance to those students. Additionally, I am pleased that the students' work efforts and submitted pieces become a part of their portfolio which in turn demonstrates, not only to the student, but to any evaluator, the progress made and the skills obtained.

Again, thank you for this ongoing opportunity to increase students' knowledge and experiences in one of the most difficult subject matters to master.

Sincerely,

Patrick Gorman, M.S., M.A.  
Special Educator
