Dear Trish,

It is my pleasure to write a reference letter on behalf of the Diocese of Las Vegas. For the last six years our schools have been utilizing *My Access*. We have been extremely pleased with this amazing tool and cannot say enough about the comprehensive training for our teachers and administrators as well as the ease with which our students are able to navigate this powerful search engine and improve their writing skills.

Our students enjoy the opportunities to practice writing with regular frequency while receiving immediate feedback. With the guidance they receive from *My Access*, they are able to continue to work toward improving their writing before submitting assignments to their teachers. With that said, the more our students write, the better their writing has become. We have seen tremendous growth in writing scores over the last several years and believe that this is due in great part to *My Access*. Our teachers utilize all of the reports available and rely upon the results to drive instruction.

Through word of mouth, one of our school's was featured on a local television station – highlighting the use of *My Access*:
