

Advancing K-12 Education with Professional Learning

The new standards for teaching and professional learning have redefined how we build curriculums, personalize student learning and manage teacher accountability. The **Vantage Professional Development Team** can help you navigate the requirements, effectively integrate classroom technology, create models for teacher effectiveness, and invigorate your entire school system. Through our consulting, implementation services, and training, we can help you:

- **Build an effective curriculum** aligned to Common Core State Standards as well as your state standards to help meet the needs of each student.
- Utilize and optimize the most innovative and cost-effective technology to provide your students with an **Adaptive Learning Environment®**.
- Implement programs that **enhance teacher effectiveness** and **measure accountability** to help you make informed, data-driven decisions.
- Plan for grant writing and **new funding sources** by showcasing your school's strengths, accomplishments, and improvement needs.

**Vantage Learning is helping thousands of schools throughout the country.
We'd like to help you!**

Advancing K-12 Education with Professional Learning

Professional Learning Offerings:

MY Access!® Essentials 1, 2, and 3 – a comprehensive, research-based training program that assists teachers in using MY Access! for developing students' writing and thinking skills across the curriculum.

MY Access! Learning to Navigate – a single introductory course designed to support effective school and district-wide introduction to MY Access!.

MY Access! Virtual Training – 2-5 sessions of short, 2-hour virtual training designed to support teachers in the basic functionality of the platform.

Customized Coaching and Mentoring – a Vantage Learning Literacy Specialist will work with teachers in their classrooms, in real time, to assist in the effective integration of MY Access! into the writing curriculum.

MY Access! Real-Time Professional Development – ongoing online support beyond initial trainings for both teachers and administrators in the areas of writing instructional strategies, data analysis to inform intervention and instruction, school- and district-wide implementation plans, and literacy. These can be delivered through small group sessions, online webinars, and one-on-one discussions with teachers.

MY Access! Trainer Certification Institute – this advanced, 8-day professional development institute builds internal capacity within a school/district by certifying participants as Essentials, Parts 1, 2, and 3 in-district trainers.

SPMS 1, 2, and 3 – a training program designed to help administrators and teachers become comfortable with the key features of the Student Progress Monitoring System® (SPMS), so that it can be integrated into the curriculum and used to its full potential.

SPMS Real-Time Professional Development – ongoing support beyond initial trainings for both teachers and administrators in designing standards-based assessments, interpreting data, and implementing individualized learning plans for students.

Adaptive Learning Pathways to College and Career Readiness – a program to help teachers and administrators identify individual student weaknesses, deliver appropriate testing, learn how to make sense of test results, and act upon the results with instruction and support in order to ensure high school students are career and college ready.

Transitioning to Common Core Standards – targeted, aligned and differentiated professional development used to define and implement quality standards-based instruction, tools for planning exemplary units, and strategies for raising student achievement.

Enhancing Teacher Effectiveness – customized professional learning incorporating opportunities for practice, observation, feedback, coaching and modeling of essential skills, leading to enhanced student and teacher success.

Principal Leadership – a program that provides school principals with the skills and strategies required to positively impact student success while delivering daily, dynamic school services.

Consultation Services – customized plan to address individual school district needs to help evaluate and plan for the critical aspects of student learning and teacher preparedness.
